

SCHOOL PRESENTATIONS BY JOHN DUNN

explore | share | inspire

John's **virtual presentations** are 30-40 minute narrated videos hosted on Vimeo
The videos available for various grade levels e.g. K-3, 4-6, 7-9
Q&A sessions with John via the platform of your choice are part of the package

Inspiring, informative & visually stunning presentations based on John's long expeditions in the Arctic & other wild regions of Canada

Suitable for ALL grades

Content & delivery tailored accordingly

HD format

Memorable images & informative video clips

Flexible duration to fit your timetable

30-60 minutes +/- questions

- education about northern Canada
- goal setting & problem solving
- creativity & innovation
- celebrating Canada's wilderness
- healthy living & physical exercise
- geography, history, the Inuit
- climate change & the environment

8-12: "You have opened the gate to the road less travelled. We would love to have you back. Bravo" *Dan Kenkel, Valemount, BC*

K-6: "John went the extra mile to make his talk pertinent to the work our school is doing on the Inuit" *Ralph Sorochan, Win Ferguson, AB*

3-8: "His experiences in Canada's Arctic should be shared with every student across the country." *Peter Mouncey, W. Churchill, Kingston, ON*

1-12: "Your Ellesmere Light presentation was truly amazing...one of the best presentations we've ever had!" *Dee Dean, Eastend, SK*

6-8: "Fantastic presentation! Our students were captivated." *Jeff Nelson, Quispamsis Middle School, NB*

THREE DIVERSE PRESENTATIONS

Ellesmere Light

a classic adventure

An innovative summer expedition across Canada's northernmost island

It was all about being creative & doing more with less. It was amazing how little "stuff" was needed to undertake such an interesting journey.

Journey North

a grand traverse

A unique series of expeditions forming a wild 8000 km traverse of Canada

If you're going to cross a country then you might as well choose a really big one! Canoeing, hiking, kayaking & skiing through Canada from south-north.

Endless Day

an arctic celebration

The "best of" John's many expeditions under the midnight sun

A great way to learn a lot about the Arctic: expedition stories, wildlife, history, archaeology, environment, climate change and more.

JOHN DUNN is a wilderness traveller and photographer with a passion for the Arctic & for sharing his images & experiences with students of all ages.

Born in the UK, he worked as a geologist in the Australian Outback before moving to Canada.

John has planned & completed over 20 arctic expeditions: totaling some 1100 days in the field & including 12,500 km of sled-hauling.

John's images from the epic 3,000 km skiing, kayaking & hiking traverse of Baffin Island were featured in **NATIONAL GEOGRAPHIC** magazine.

For promoting awareness of Canada's arctic geography, John was made a Fellow of the Royal Canadian Geographical Society.

Future plans include several more high Arctic journeys in Canada.

John lives in Canmore, Alberta

WHAT OTHERS HAVE SAID ABOUT JOHN'S TALKS

7-9: "The photos and videos and pacing were perfect. The humor and your own down-to-earth treatment and self-deprecation are endearing. You are a gifted speaker and the kids were very privileged to hear you. It was obvious they knew it too - you held their attention completely and that age group is a very tough room."
Bev Jaremko, Junior High Teacher, Calgary Board Of Education, Calgary, AB

1-6: "The presentation was phenomenal...the time seemed to fly by. Not only Did Mr. Dunn share his experiences with videos and pictures, but his style of presentation and stories taught us all about the beautiful country we live in - and had us teachers continuing to talk about the presentation for days after he had left. Definitely recommended!" *Sarah Watson, Grade 3 Teacher, Sacred Heart, Strathmore, AB*

3-6: "John, the feedback was excellent. The teachers were impressed that you spoke to the students at their level. Your material and photography were captivating. In the opinion of the staff and students it was one of the best educational visits ever!" Elizabeth LeMay, Principal, William Konkin Elementary School, Burns Lake, BC

9-12: "It is an act of faith inviting anyone to give a talk to 15 year olds at a school, let alone someone from across the world. As one boy summed it up afterwards: We have got to get this bloke back again, that was terrific. Well done and thank you." John Norris, Senior Master, Christ Church Grammar School, Perth, **Australia**

7-12: "Your talk was the most gripping and inspiring in our first Colloquium Alpinum series on the theme of "Creative living, living creatively". The students were fascinated by the arctic landscapes as well as by the vivid, humorous manner in which you described some of the daunting adventures you have experienced."
Peter Pasquill, IB Coordinator, Lyceum Alpinum Zuoz, **Switzerland**

K-2: "He inspired and invigorated our study of polar regions with his stunning photography and age-appropriate talks, adapting his material for a transfixed audience of Reception and Year 1 pupils, whose enthusiastic questions had to be curtailed to allow the older pupils their turn" Jo Glen, Head, Dolphin School, London, **England**
